

## Frequently-AskedQuestions:

### Is DairyCHAMP 3.0 a Windows® program?

DairyCHAMP® is a DOS-based program that runs very well in a Windows environment. In addition, DairyCHAMP contains Windows-based graphing capability. With the move to Agricultural Information Management Inc., DairyCHAMP will be developed into a Windows-based program in the future.

### How much does DairyCHAMP cost?

DairyCHAMP 3.0 costs \$445, which includes twelve months of unlimited technical support by phone, fax or e-mail. A continuing annual fee of \$400 is required if you wish to continue use of the program and maintain access to unlimited technical support. A free demonstration program is available upon request.

The annual fee also entitles you to updates within a version, and a discount on major upgrades.

### What does DairyCHAMP do?

DairyCHAMP keeps track of anything that can physically happen to your cows & heifers on a dairy farm, and allows you to pull that information together in formats from simple lists of things-to-do all the way to high-end data analysis. Our [brochure is available](#) in PDF format if you have [Acrobat Reader](#) installed on your computer.

### Does DairyCHAMP interface with DHI?

DairyCHAMP interfaces with all the major DHI organizations in the United States, and all the interface functions are included with the base program.

### What kind of computer do I need?

To run DairyCHAMP®, you will need a microcomputer with the following minimum specifications:

- ▣ 486 or faster processor with DOS Version 5.0 or higher, Windows 3.1x or Windows 95
- ▣ A hard drive with at least 20MB of free space
- ▣ 8MB RAM
- ▣ Windows 95 or later is required for graphic reports

### What other services does DairyCHAMP offer?

For an hourly fee, support staff can come to your farm or practice and provide classes on DairyCHAMP, dairy record-keeping, web usage and general computer usage. The staff member that runs the class is guaranteed to have an extensive knowledge of DairyCHAMP, computers and practical dairy farming, and will have both academic and real-life qualifications in agriculture. Contact [Technical Support](#) for more details.

### Who owns DairyCHAMP®?

DairyCHAMP is wholly-owned by [Agricultural Information Management Inc.](#), Dr. Mark Kinsel's forward-thinking company based in Idaho. The daily operations of the program are handled by [Agricultural Computing & Consulting](#), owned & operated by Andrew Whyte in Minnesota.
